

Jenny's Stampin Corner Step by Step Instructions

**Disclaimer: I am not using specific color choices in the instructions.
I am leaving the details up to you.**

1. Begin with a 11" x 3 1/2" piece of cardstock. That is then scored at 2 3/4" and 5 1/2" using the [Simply Scored Scoring Tool](#).
2. You also need a piece of cardstock cut to 3 1/2" x 4 3/4" that will serve as the front flap and one cut to 3 1/2" x 2 3/8" which will sit under your sentiment.
3. Select a piece of [Designer Series Paper](#) (DSP) that is cut to 4 1/4" x 3".
4. I also recommend some ribbon or baker's twine. The examples are made with 1/4" wide ribbon cut to 14" in length.
5. Wrap the ribbon/twine around the piece of DSP and tie a bow that so that it sits on the left hand side of the DSP.
6. Using [Stampin' Seal](#) adhere the DSP to the 3 1/2" x 4 3/4" piece of card stock with equal border around all sides. Make sure your ribbon/twine is where you want it before adhering.
7. Next Stamp your sentiment/image on a scrap piece of light colored cardstock and punch the sentiment out with your chosen punch or cut it out using a die and the [Stampin' Cut and Emboss Machine](#). You can always just use a cut piece of card stock to stamp on.
8. Using [Stampin' Dimensionals](#) adhere your sentiment/image to the piece of card stock measuring 3 1/2" by 2 3/8".

9. Now using Stampin' Dimensionals adhere the sentiment layers to the DSP layer making sure your bow is where you want it in relation to your sentiment/image.
10. Next on the piece measuring 11" x 3 1/2" with it folded at the 5 1/2" score mark and that fold at the top adhere [Tear & Tape Adhesive](#) around the edges of the rectangle formed below the score mark.
11. Remove the paper backing covering adhesive and adhere the Front flap piece with all the layers so that the bottom edge of the flap lines up with the bottom edge of the card stock.
12. Now unfold the piece so that it full length and the inside is exposed. Using the Tear & Tape Adhesive adhere the post it notepad to the bottom edge of the cardstock showing equal borders on the three outside edges.
13. Hook the front flap behind the top of the post it note pad and embellish your project with any other embellishments of your choice and your project is complete.
