

Jenny's Stampin' Corner Step by Step Instructions

1. Begin with a 4 ¼" x 11" piece of [Calypso Coral Cardstock](#).
2. Cut a piece off of this piece this measures 3" x 4 ¼". Then score the remaining piece at 5 ½" and fold on the score line.

3. Next cut a piece of the [Granny Apple Green Designer Series paper](#) to 2 ¼" x 4".
4. You will need 3 pieces of [Basic White Cardstock](#) one measuring 5 ¼" x 4" for the inside of the card, one 2 ¾" x 4" for the card front, and then a scrap piece to stamp the sentiment on.
5. Now Stamp the flower and Hummingbird image on the [Basic White Card Stock](#) measuring 2 ¾" by 4". Stamp the image using [StazOn](#) or [Memento Ink](#) in Black. Set this piece aside to dry.

6. Now stamp the Leaves and Branches on the piece of [Basic White Cardstock](#) measuring 5 ¼" x 4". Use [Granny Apple Green](#) to stamp the image around the 3 outside edges of the cardstock stamping off once on scrap paper. Only stamp from the halfway point and right on the top and bottom edges.

7. Now adhere the stamped piece of Basic White on the [Calypso Coral Cardstock](#) using [Stampin' Seal](#).
8. Next stamp your sentiment on the scrap piece of [Basic White](#) using [Granny Apple Green](#) and punch out the sentiment using your punch. Set this aside.
9. Now adhere the [Granny Apple Green DSP](#) using [Stampin' Seal](#) to the front of the small flap on the [Calypso Coral Cardstock](#). You should have about an 1/8" of an inch border of Calypso Coral around the DSP.
10. Hopefully the ink has had time to dry on your stamped images. You can now use [Calypso Coral Stampin' Blends](#) and [Granny Apple Green Stampin' Blends](#) to color in the flower and hummingbird. I start with the darker marker and outline the images and then use the lighter color to color in the remaining image and blend the darker lines. Be sure to have scrap paper under your images while you color them.
11. Once you are done coloring the images, take 6 inches of coordinating ribbon and attach to the lower edge of the [Basic White Cardstock](#) with the stamped images on them.
12. Now using [Stampin' Seal](#) attach the stamped [Basic White](#) piece to the [Calypso Coral](#) piece that measures 3" x 4 ¼".

13. On the back side of this [Calypso Coral](#) piece using [Stampin' Seal](#) on the 1/3 of the piece that will be adhered to the front flap on the card base over the DSP.

14. Now take the punched sentiment piece and place [Stampin' Dimensionals](#) on the top half of the piece and adhere to the front of the card with the bottom half extending below the front flap.
15. To add flare to the card, place small [Pearl Basic Jewels](#) in the center of the flowers.

Jenny

If you have been inspired to place an [online order with Stampin' UP!](#) please check my blog at <https://jennysstampincorner.wordpress.com> for the current Hostess Code. Anyone using the code and placing an order of \$25 or more will receive a thank you gift.
